“ *I worked with Bert when we were both employed by Wells Alum., North Liberty, many years ago. Remained friends after we both left there. I would stop to visit and have work done on my car when he owned the garage. May he rest peace.*

“ *My deepest sympathies to all of Bert's family at this most difficult time. When I moved to the area in 1976, I was in need of finding a shop to do repairs on my vehicles. After my first time having work done at Clyde's Steering, the kindness and honesty in his voice was very evident, and I never went anywhere else. What a truly honest and gentle soul. In later years, I found that he & I both restored Wheel Horse tractors. Everyone who's ever met this man will be greatly missing him. God's speed Bert, and God's grace to all his family*
