“ I was the nurse who took care of Earl two of the evenings he was at the hospital. He always had a smile for me, even when he did not feel well. He always said please and thank you and he was just a good soul. I know that he is in a better place, please remember that. I hope that you, the family, are doing well also (think about what I told you about my son, hopefully it helps). Take care and my deepest condolences.
