“ *I remember as a kid the one & only vacation we took as family, Uncle Jimmy went with us. It was a road trip (when I say road trip, I mean road trip) we were told we were going to Florida & we did. 3 adults & 4 kids stacked into the vista station wagon. Drove to Florida from Indiana. We were allowed to get out of car dip toes in the ocean & loaded back up to travel the eastern coast visiting family. All captured on 8mm film. All except When Uncle Jimmy & Dad made a short film. It consisted of uncle Jimmy appearing to hang off a cliff in West Virginia. Secretly they exploded a firecracker in a up close shot then chopped it to appear it explode when Uncle Jimmy went over the cliff. Then a shot that appears Uncle Jimmy is hanging off a cliff (reality he was standing on another rock below the one appeared to be hanging from.) unfortunately it didn't come out on film. But I remember & will never forget how hard we laughed. we have an AWESOME FAMILY & today & future generations should never forget how special Families are.*
